

APG & Co Remote Access User Guide

To work remotely, firstly you will need to connect to a secure VPN. Click on the Fortinet VPN Link:

Fortinet VPN:

This will take you to a login screen:

Please Login

Name:

Password:

Enter your username and password and press login.

If this is the first time using this service, you will need to install the plugin for the fortinet software, click on the link to install the plugin:

Tunnel Mode

The Fortinet SSL VPN Client plugin is not installed on your computer, is not up to date, or your browser settings are blocking the plugin from running. The plugin is required for the tunnel mode function of the SSL VPN Client.

You need to have administrator rights to perform the first time installation. Once it is installed, it runs under normal user privileges and can be upgraded to newer versions without administrator privileges.

[Click here to download and install the plugin.](#) After the installation, please restart your browser.
